CAMPO REAL

↩ *Campo Real is a small town located 35 Km. south Madrid.*

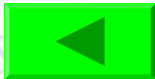

↩ *It has a population of about 6.500 inhabitants.*

Most of them work in factories in other towns. Not many women work.

↩ *Social and cultural levels are low . Most families (70%) have only studied Primary Education .*

↩ *Reading level is quite low and television is the means of communication preferred to get information.*

↩ *Most of students only attend to Compulsory Education.*

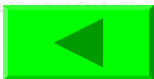

CAMPO REAL

- Campo Real is well known because of its olives, cheese and pottery.
- Our students visit the olive trees fields, the oil mill and the cheese factory and they learn how to model clay.

The town has several churches, museums, factories,... but the most representative is Santa María del Castillo Church.

MIGUEL DELIBES SCHOOL

The name of the school comes from a famous Spanish writer, Miguel Delibes, who described brilliantly country towns like ours.

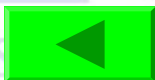

Our school is divided in three buildings.. It has got 19 classrooms: 3 for 3-year-old students, 2 for 4-year-old students and 2 for five-year-old students. The 12 left are for Primary Students (1st to 6th grades). There are also a music room, a library, a computer room, a school canteen, ...

We have got about 450 students, 16 of them have special needs. 15% of the students come from different countries such as Romania, Morocco, Colombia, Ecuador,....

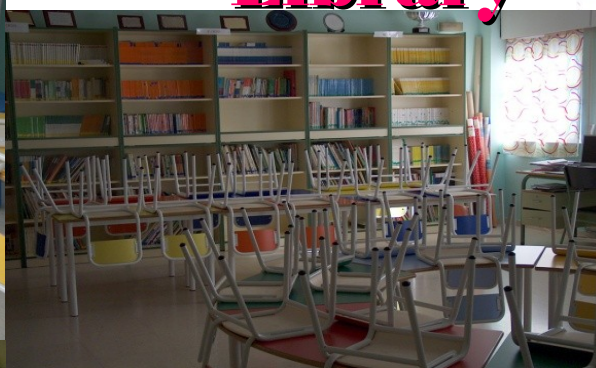

We are 30 teachers and 25 of us are taking part in the Project.

These are some of our facilities
